

XVI EBMWG 2023

International Bone Marrow Course and Workshop:
Impact of genetic alterations on the classification
of bone marrow myeloid and lymphoid neoplasms

BARCELONA, April 13th-15th

Topics:

- Systemic mastocytosis with an associated myeloid neoplasm.
- Myeloproliferative neoplasms, myelodysplastic/myeloproliferative neoplasms, myelodysplastic syndromes with genetic alterations that impact in their classification.
- Impact of genetic alterations in the classification of lymphoproliferative neoplasms with villous lymphocytes and other small B cell lymphoproliferative neoplasms (i.e indolent mantle cell lymphoma, lymphoplasmacytic lymphoma, splenic marginal zone lymphoma).

LOCAL ORGANIZING COMMITTEE

Dr. María Rozman, Barcelona (Spain)
Dr. Santiago Montes, Santander (Spain)
Dr. Agustín Acevedo, Madrid (Spain)
Dr. Elías Campo (Spain)

XVI EBMWG 2023 / DAY 1

THURSDAY, April 13th

MORNING

08.30-09.00h

Welcome and registration

Elias Campo and Maria Rozman, Barcelona (Spain)

09.00-12.30h

BASIC COURSE:**Interactive case-based basic approach to BM pathology**

Chairs: Alexandar Tzankov, Basel (Switzerland) and Maria Rozman, Barcelona (Spain)

09.00-09.30h

Proliferation

Agustín Acevedo, Madrid (Spain)

09.30-10.00h

Dysplasia

Hans Michael Kvasnicka, Wuppertal (Germany)

10.00-10.30h

Blasts

Daniel Arber, Chicago (USA)

10.30-11.00h

Coffee

11.00-11.30h

Eosinophilia

Sa Wang, Houston (USA)

11.30-12.00h

Cytopenia

Margarita Elices, Madrid (Spain)

12.00-12.30h

Lymphoid infiltrates

Leticia Quintanilla- Martinez de Fend, Tübingen (Germany)

12.30-14.00h

Lunch

AFTERNOON

14.00-18.00h

SYSTEMIC MASTOCYTOSIS

Chairs: Roos Leguit, Utrecht (Netherlands) and Sa Wang, Houston (USA)

14.00-14.30h

Systemic mastocytosis with an associated myeloid neoplasm

Attilio Orazi, El Paso (USA)

14.30-15.00h

Immunophenotypic and molecular characterization of mastocytosis and mast cell activation syndromes: impact on the diagnosis and classification of systemic mastocytosis

Alberto Orfao, Salamanca (Spain)

15.00-15.30h

Update on recent advances in the clinical management of patients with advanced systemic mastocytosis

Andreas Reiter, Mannheim (Germany)

15.30-16.00h

Coffee

16.00-18.00h

WORKSHOP 1**Systemic mastocytosis with an associated myeloid neoplasm**

Chairs: Attilio Orazi, El Paso (USA) and Roos Leguit, Utrecht (Netherlands)

XVI EBMWG 2023 / DAY 2

FRIDAY, April 14th

MORNING

09.00-09.30h

Chairs: Hans Michael Kvasnicka, Wuppertal (Germany) and Agustín Acevedo, Madrid (Spain)

Keynote lecture. Bone marrow niches in hematological malignancies

Simón Méndez-Ferrer, Cambridge (United Kingdom)

09.30-10.00h

Triple negative myelofibrosis: a diagnostic challenge

Alberto Álvarez-Larrán, Barcelona (Spain)

10.00-10.30h

Coffee

10.30-12.30h

WORKSHOP 2: part 1**Myeloproliferative neoplasms, myelodysplastic/myeloproliferative neoplasms, myelodysplastic syndromes with genetic alterations that impact in their classification**

Chairs: Hans Michael Kvasnicka, Wuppertal (Germany) and Maria Rozman, Barcelona (Spain)

12.30-14.00h

Lunch

AFTERNOON

14.00-14.30h

Chairs: Daniel Arber, Chicago (USA) and Attilio Orazi, El Paso (USA)

Updates in the diagnosis of myelodysplastic syndromes

Rob Hasserjian, Boston (USA)

14.30-15.00h

Molecular international prognosis scoring system for myelodysplastic syndromes

Francesc Solé, Barcelona (Spain)

15.00-15.30h

Oligomonocytic Chronic Myelomonocytic Leukemia (OM-CMML) and other updates in MDS/MPN

Xavier Calvo, Barcelona (Spain)

15.30-16.00h

Coffee

16.00-18.00h

WORKSHOP 2: part 2**Myeloproliferative neoplasms, myelodysplastic/myeloproliferative neoplasms, myelodysplastic syndromes with genetic alterations that impact in their classification**

Chairs: Rob Hasserjian, Boston (USA) and Leonor Arenillas, Barcelona (Spain)

21.00h

Social dinner

XVI EBMWG 2023 / DAY 3

SATURDAY, April 15th

MORNING

09.00-12.30h

LYMPHOID NEOPLASMS IN THE BONE MARROW

Chairs: Leticia Quintanilla- Martinez de Fend, Tübingen (Germany) and Maurilio Ponzoni, Milan (Italy)

09.00-09.30h

Lymphoplasmacytic Lymphoma

Santiago Montes-Moreno, Santander (Spain)

09.30-10.00h

Plasma cell neoplasms and related disorders, what's new?

Falko Fend, Tübingen (Germany)

10.00-10.30h

Clinical features and therapeutic approach for malignant monoclonal gammopathies (multiple myeloma and Waldenström macroglobulinemia / lymphoplasmacytic lymphoma)

Carlos Fernández de Larrea, Barcelona (Spain)

10.30-11.00h

Coffee

Chairs: Armando Lopez-Guillermo, Barcelona (Spain) and Santiago Montes-Moreno, Santander (Spain)

11.00-11.30h

Keynote lecture. Molecular genetics of Chronic lymphocytic leukemia

Elias Campo, Barcelona (Spain)

11.30-12.00h

T-cell lymphomas in the bone marrow: primary ones and such that spread therein

Alexandar Tzankov, Basel (Switzerland)

12.00-12.30h

The role of PET vs bone marrow biopsy for the staging of the lymphomas

Armando Lopez-Guillermo, Barcelona (Spain)

12.30-14.00h

Lunch

AFTERNOON

14.00-14.30h

Hairy cell leukemia genetics: biological and clinical implications

Enrico Tiacci, Perugia (Italy)

14.30-15.00h

Splenic marginal zone lymphoma

Maurilio Ponzoni, Milan (Italy)

15.00-15.30h

Splenic B Lymphoma/leukemia unclassifiable (hairy variant and diffuse red pulp)

Estella Matutes, Barcelona (Spain)

15.30-16.00h

Coffee

16.00-17.45h

WORKSHOP 3**Impact of genetic alterations in the classification of lymphoproliferative neoplasms with villous lymphocytes and other small B cell lymphoproliferative neoplasms (i.e indolent mantle cell lymphoma, lymphoplasmacytic lymphoma, splenic marginal zone lymphoma)**

Chairs: Estella Matutes, Barcelona (Spain) and Fina Climent, Barcelona (Spain)

17.45-18.00h

Concluding remarks, next EBMWG course

Alexandar Tzankov, Basel (Switzerland) and Maria Rozman, Barcelona (Spain)
